

4th International Conference on Electrical, Communication and Computer Engineering (ICECCE 2023)

CALL FOR PAPERS

December 30 - 31

IMPORTANT DATES

DUBAI, UAE

Paper Submission: 10 September 2023

Early Bird Registration: 20 October 2023

Acceptance Notification: 10 October 2023

Camera-ready Submission: 30 October 2023

ABOUT

Multimedia University Malaysia and University of Buner, Pakistan are going to organize the "Fourth International Conference on Electrical, Communication and Computer Engineering (ICECCE 2023)" on 02-03 June 2023.

This two-day international conference will be held at the historic, beautiful, and mega city of Dubai, UAE. Experts will be invited to deliver their keynote talks, speeches, session talks, panel discussions, contributory lectures, and poster presentations related to the topics.

This conference will provide opportunities for academia representatives, researchers, students, industrialists, engineers, scientists, professionals, policymakers and investors, to review recent developments in the areas related to Electrical, Electronics, Computer and Communication Engineering and Technologies. The conference covers many topics under different fields such as power and energy, smart grids, industrial process control, intelligent bio-medical diagnostic systems, and wireless communications, signal and image processing, embedded systems, networks & security, Internet of things & big data and software engineering & agile development. The outcome of the lectures, expert discussions and presentations will help our societies in Asia and particularly in Malaysia & Pakistan and will open new avenues in developing solutions to future smart systems and technologies.

**Authors can
submit papers at:
www.icecce.com**

Venue: DUBAI, UAE

SCOPE AND INTERESTS

Areas of interest include, but are not limited to:

- Power Generation Systems
- Modeling and Simulation of Power Systems
- Power System Management Technologies
- Renewable Energy Systems, Technology & Management
- Applications of Power Electronics
- Electrical Machines and Adjustable Speed Drives
- High Voltage Engineering and Insulation Technology
- Signal and Image Processing
- Neural Networks and Intelligent Systems
- VLSI and MEMS Design
- Intelligent Industrial Process Control
- Intelligent Robotics and Control
- Satellite and Wireless Communications
- Antennas and Propagation
- Next Generation Mobile Communications
- Optical Communications and Photonics
- RF and Microwave Circuits and Devices

- Wireless/Radio Access Technologies
- Massive MIMO Communication Systems
- Applications of Compressive Sensing Theory
- Cognitive Radar Systems
- Networks and Security
- High Performance Networks and Protocols
- Network Reliability and QoS
- Internet of Things and Big Data
- Software Engineering and Agile Development
- Multimedia and Web Services Agents
- Cloud Computing
- Embedded Systems
- Virtual and Augmented Realities
- Human Computer Interaction
- Context awareness
- Ubiquitous Computing
- Global Software Engineering

ORGANIZERS & TECHNICAL CO-SPONSORS
